

CONSTRUCTION UPDATE

SEPTEMBER 19, 2007

North Interchange, Farmington

Night Work at the I-15 and Park Lane Interchange

Where

In the center of I-15 near Park Lane (Farmington)

When

Wednesday, September 19 through early October;
Weeknights from 10 p.m. to 6 a.m.

What

Crews will pound long pieces of steel called piles deep into the ground with the assistance of a crane. It is possible that some residences will experience noise and vibration as a result of this work. The contractor will take precautions to minimize impacts as much as possible.

What

The steel piles will provide support for the soon to be constructed bridge that will take Legacy Parkway Northbound traffic onto I-15 Northbound. Piles cannot be placed during the day for the safety of motorists traveling on I-15.

Safety Notes

The safety of our workers and the public is a top priority for us. Please pay special attention to the reduced speed limit, one-way traffic, flaggers and detours in your area.

Children should not play in or around open trenches or around bridge structures. Adult supervision is strongly encouraged for children and teens playing in neighborhoods near the construction zone.

No trespassing in the construction area. You may safely observe construction activity from your yards and porches, outside barricades and construction fencing. The construction area is private property and visitors must have proper safety attire and be escorted by a project representative at all times.
